

## SH2706 HT22 Student debate description

### 1. Date and time

The debate will be in room FB51 on Dec. 12, 13:00-15:00.

### 2. Team selection

The team selection is NOT yet finalized, and the following 4 topics will be covered in the debate.

|         |   | Team A | Team B |
|---------|---|--------|--------|
| Topic 2 | Is the solar power sustainable?                           | YES    | NO     |
| Topic 3 | Is the wind power sustainable?                            | YES    | NO     |
| Topic 4 | Is the nuclear fission power sustainable?                 | YES    | NO     |
| Topic 6 | Is the life-cycle analysis of ETS useful and/or relevant? | YES    | NO     |

### 3. Debate procedure\*

The debate will include arguments, rebuttals, and audience questions for each topic. The procedure for each topic (~22 min) is:

| Activity                                 | Team          | Time  |
|--|---------------|-------|
| Opening statement, arguments, evidence   | Team A        | 4 min |
| Opening statement, arguments, evidence   | Team B        | 4 min |
| Further arguments and evidence, rebuttal | Team A        | 3 min |
| Further arguments and evidence, rebuttal | Team B        | 3 min |
| Rebuttal, sum-up key points              | Team A        | 3 min |
| Rebuttal, sum-up key points              | Team B        | 3 min |
| Audience questions                       | Teams A and B | 2 min |

\*Notes:

(1) If you want to use the projector for your presentation, you need to properly connect your computer before the topic starts (and we'll test it beforehand). The time allocation includes any disruptions due to hardware issues.
